

Photomax™ Posters

Positioning Statement

Photomax™ Posters present a fun-filled way to make your memories as large as life. Simply send your digital images to us and Photomax™ will recreate your pictures in poster size. Whether it's highlighting your child's achievements or celebrating a birthday, you and your family will love these exciting gifts. As always, you can count on Photomax™ to bring you the highest quality poster products and resolution.

Product Concept

Why not make your child a true poster child? You can pay tribute to your child's accomplishments or give recognition to a colleague by creating a beautiful customized poster. Our professional photo technicians will take your traditional photos or digital images and place them on unforgettable posters that everyone will admire. Each photo is printed on tear-resistant, glossy paper, producing a true photo-quality image.

Target Audience

This product is designed primarily for parents and grandparents who have children or grandchildren involved in activities such as sports, bands, academics, etc.

Key Features and Benefits

Our product guarantees the highest quality and best care to your photos and posters. We handle your posters in a clean laboratory environment where they are processed by our professional lab technicians. When processing your posters, we use state-of-the-art printing machinery that produces magnificent resolution and clarity. In addition, your posters are packaged carefully to ensure safety and protection when shipping. Your posters are guaranteed to be in perfect form upon arrival to your home.

Product Testimonials

"I bought a poster of my grandson from a picture that I took on my camera at his soccer game. I was amazed at the quality of the poster. Even more amazing was how much my grandson loved the poster. His friends want to know where he got it so they can get one."

"My daughter loves the poster we made of her. It adds so much to her bedroom. By the way, I love it too. Thank you so much!"

Frequently Asked Questions

What technology is used to create the Photomax Poster?

We use high quality Ink Jet technology with a glossy photographic type paper.

What file format for the photo is required for the Photo Poster?

We use JPEG files because they transmit well over the Internet. When sending files, please ensure they are a minimum resolution of 1535x1024.

What sizes are available?

16x20, 20x30, 24x36

What resolution do the different sizes require?

The 16 x 20 posters recommended resolution is 1280 x 1024, 20 x 30. The 24 x 36 posters recommended resolution is 1536 x 1024.

Can I get a matte finish on my posters?

Posters come with a gloss finish that falls between a matte and high gloss.
